

PRATEEK SINGH

BI & ANALYTICS LEAD | ENTERPRISE REPORTING | GOVERNANCE | SELF-SERVICE ENABLEMENT

Lansing, MI | Open to Relocation | prateek.singh22@outlook.com | +1 (517) 512-4813 | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

BI and analytics leader with 9+ years of experience building enterprise reporting solutions, governance frameworks, and self-service analytics capabilities across finance, operations, HR, sales, and learning environments. Known for improving reporting trust, simplifying fragmented dashboard ecosystems, and combining strong technical execution with stakeholder-facing communication, training, and enablement. Hands-on with Power BI, Tableau, SQL, Azure Data Factory, Azure Databricks, ETL workflows, and enterprise BI operations. Currently pursuing an MBA at the Kelley School of Business to deepen strategy and leadership capability.

CORE SKILLS

Leadership	Enterprise reporting, executive dashboards, self-service analytics, reporting modernization, dashboard rationalization, data storytelling
Governance	Data governance, KPI standardization, metric definitions, access controls, data quality validation, QA/UAT, production support
Platforms	Power BI, Tableau, Tableau Server administration, Microsoft Fabric, SQL, Azure Data Factory, Azure Databricks, Oracle, Db2, SSIS, SSRS, Cognos, Redshift

PROFESSIONAL EXPERIENCE

Jackson National Life - Lansing, MI

Sep 2022 - Present

Senior Data Visualization & Analytics Engineer

- Serve as a BI SME across Power BI and Tableau, supporting enterprise reporting used across finance, operations, HR, distribution intelligence, executive leadership, education, customer care, and document management functions.
- Built and supported 5 Azure Data Factory pipelines that improved reporting delivery and helped reduce failures, refresh issues, and manual intervention by about 80% across analytics workflows.
- Designed Tableau site structure and permissions as site administrator for two main sites, establishing dev, QA, and production environments for data sources, flows, and workbooks.
- Built 5+ dashboards and supported 100+ reporting assets, helping business teams maintain reliable executive and operational reporting environments.
- Delivered executive-facing Power BI dashboards covering budget and expenditure, business inflow versus outflow, and audit-oriented reporting in collaboration with senior leaders and VPs.
- Improved governance by standardizing platform structure, permissions, and versioning practices, while helping rationalize overlapping dashboard assets across the environment.
- Co-led BI Community of Practice sessions and office hours, advising employees on templates, visualization best practices, and reporting design while contributing to Power BI and Fabric enablement.

Red Hat, Inc. - Pune, India

Aug 2021 - Apr 2022

Business Analyst II

- Built Tableau dashboards supporting North American sales and finance analysis, helping leaders evaluate product performance, customer patterns, expenditure, and recurring business trends.
- Leveraged Redshift-based data and outputs from partner ML teams to translate complex business questions into decision-ready Tableau solutions for senior leadership.
- Created a Tableau landing dashboard using Tableau Server metadata and usage logs, with top-used dashboard shortcuts and keyword search to help users navigate a large reporting environment without relying on multiple teams for report discovery.
- Standardized KPI definitions and reporting logic, improving consistency in how business performance was measured and consumed across stakeholders.

Infosys Limited - Pune, India

Dec 2016 - Aug 2021

Technology Analyst

- Delivered 800+ in-person and virtual training sessions across BI, data visualization, SQL, ETL, and reporting technologies, reaching 10,000+ professionals globally.

- Designed and taught hands-on programs in Power BI, Tableau, SSIS, SSRS, SSMS, Informatica, Cognos, Snowflake, Qlik, Pentaho, MongoDB, and related BI tools.
- Built reporting and data engineering solutions for trainee and education data, first using Microsoft SSIS, SSMS, and SSRS and later Power BI, giving senior leadership deeper visibility into training performance and workforce readiness.
- Created 4 core learning modules for Infosys Lex and contributed to additional BI course content later extended into Springboard-related learning offerings.
- Supported BI training environments and production-related issues as an SME, handling infrastructure, assessments, demos, troubleshooting, and technical consulting across multiple programs.

LEADERSHIP & RECOGNITION

- Co-chaired ASCENT BRAG initiatives that helped expand engagement and visibility for Asian employees while creating a stronger internal platform for representation and community building.
- Represented Jackson at university outreach and career events as a Talent Ambassador, sharing analytics career guidance and strengthening the early-talent pipeline
